## India's business environment and socio-economic indicators

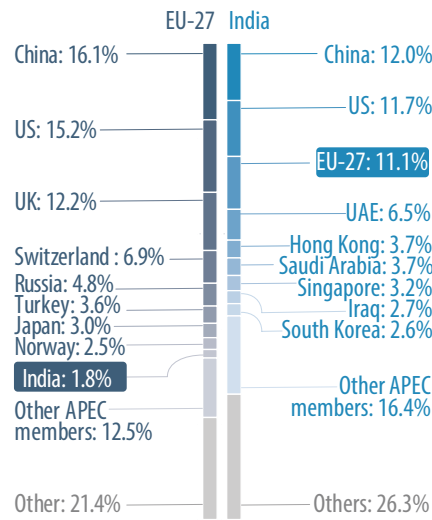

Rank	Description
63/190	The <b>Ease of Doing Business's</b> 'distance to frontier' score assesses the overall level of regulatory performance of a country. It ranges from 0='lowest performance' to 100='the frontier', the best performance observed worldwide each year.
131/189	The <b>Human Development Index (HDI)</b> measures the average achievement in key dimensions of human development. It is based on life expectancy at birth, average duration of education and GDP per capita. It ranges from 0 to 100. 'High human development countries' (UN) are in the range between 70 and 80.
86/180	The <b>Corruption Perception Index</b> measures the perceived levels of public sector corruption worldwide. Scores range from 0 (highly corrupt) to 100 (very clean).
83/153	The <b>GINI Index</b> measures the deviation of the distribution of income among individuals or households within a country from a perfectly equal distribution. It is hence a measure of inequality in income distribution. A value of 0 represents absolute equality, a value of 100 absolute inequality.
