

# Addendum to “Essays in Quantitative Macroeconomics: Income Inequality, Income Risk, and Optimal Redistribution”

Philipp Grübener

January 20, 2022

In “Essays in Quantitative Macroeconomics: Income Inequality, Income Risk, and Optimal Redistribution” I did not include the full citations of two data sources, which are described and used in the thesis. I apologize for these omissions and add them in this addendum.

The Current Population Survey (CPS) is provided by the Integrated Public Use Microdata Series (IPUMS) (Flood et al. 2020).

The Panel Study of Income Dynamics (PSID) is produced by the Survey Research Center at the University of Michigan (Panel Study of Income Dynamics 2021). The collection of data used in this study was partly supported by the National Institutes of Health under grant number R01 HD069609 and R01 AG040213, and the National Science Foundation under award numbers SES 1157698 and 1623684.
